Debugging is twice as hard as writing the code in the first place. I am a kind of programmer who would spend more time to get my fundamentals right and develop a proper, fully functional software than to create some half-cooked software and fire fight with bugs for the rest of the operational time. I have dedicated myself in learning many new skills and I always try to be update with the latest technologies. I always strive to produce high quality deliverables, which leaves my clients with a big smile.

EDUCATION

Bachelor of Technology in Information Technology

Anna University - Chennai, India.
2006-2010

LANGUAGE PROFICIENCY

- C#
- XAML(WPF)
- MySQL
- Vb.Net
- ASP.Net
- LINQ
- HTML, CSS & Java Script
- React
- PHP

SKILLS

Technical:

- Database Modelling
- Desktop
Application(C#,WPF)
- Web API
- Cloud Setup(Digital
Ocean)

Where I have been

Shapoorji Pallonji Mid East LLC, Dubai

Jul 2018 - Present

Designation: Software Developer / Database Admin

- As a software developer, I support my seniors with the development of office productivity applications and database management system. Some of the applications include Time Sheet Manager & Rebar Quantity. I also help the team with developing apps using Revit API. As a database admin, I manage the data related to all projects (drawings, IFC files, invoices), manage C4R to maintain Revit files and assign access to new users, periodical back up of documents and archive them. I also had an opportunity to work in SAP GUI Environment.

Cethar Healthcare Services Pvt Ltd, India

Jul 2013 - May 2018

Designation: Software Engineer / Database Administrator

- I was the lead software engineer who mentored, trained and managed a team of five engineers. During my stay with Cethar Healthcare, I have developed and managed a bespoke, centralized database software application to record, link and monitor the complete operations of the hospital. The Software implemented a single source of truth structure (SSOT), thus eliminating all the redundant, conflicting, duplicate data.

Splendsys Tech Serve Pvt Ltd, India

Apr 2012 - Jun 2013

Designation: Software Engineer / IT Support

- Being a part of service providing company, I had the opportunity to work with multiple clients on diverse projects. I learnt all my key competencies during my stint with Splendsys. My main area of involvement was using C# to develop dot net framework-based software applications like Android apps & Desktop based ERP systems development.

Technology:

- WPF
- MySQL
- MVVM
- Asp.Net Core

</>SOFTWARE PROJECTS

- Desktop Application

(PS,AI,PR,AE,XD)
- Resolve 16 video Editor
Tool
- PC/Laptop Hardware and
Software Troubleshooting
- Networking & System
administration
- Auto CAD
- SAP GUI

🗨️LANGUAGE

- English
- Tamil

👤PERSONAL DETAILS

Date of birth
19-Dec-1988

Nationality
Indian

Visa status

Residence

Marital Status
Married

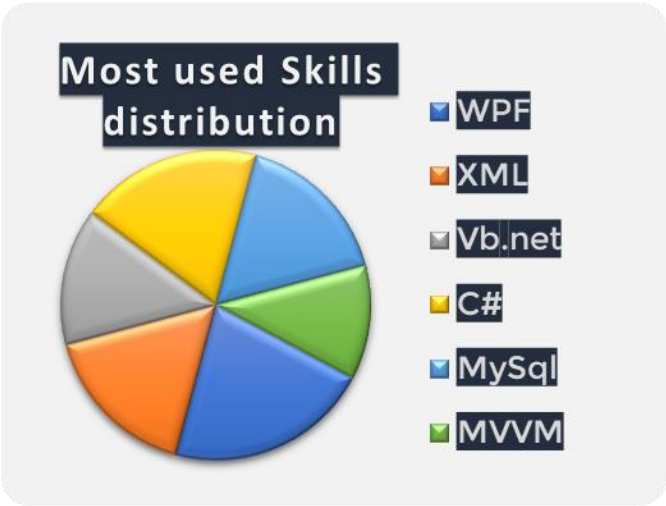

Freelance UI/UX Designer & Software/Hardware Technician, India.

Jul 2010 – Apr 2012

Designation: Self

- After my graduation, I started my career as a freelancer developer/trainer, which enabled me to visit colleges/companies and train people on the latest software skills. I have worked in areas ranging from Web page development to Graphic User Interface elements using Adobe tools. In addition to this, I followed my passion by working as a Freelance Hardware & Networking Technician providing installation, troubleshooting and maintenance support to my clients.
